

Name: Shanghai Institute of Quality Inspection and Technical Research Co., Ltd.

Address: No.900, Jiangyue Road, Minhang District, Shanghai, China (Lighting Equipment and Equipment for Explosive Atmospheres)

Registration No. CNAS L0128

Accreditation Criteria: ISO/IEC 17025:2017 and relevant requirements of CNAS

Effective Date: 2026-01-21 Expiry Date: 2030-10-11

SCHEDULE 3 ACCREDITED TESTING SCOPE

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
I、Lighting Equipment test methods						
1	Electric and electronic products	1	Cold	Environmental testing - Part 2: Test methods - Test A: Cold GB/T 2423.1-2008		2024-08-13
		2	Cold	Environmental testing - Part 2-1: Tests - Test A: Cold IEC 60068-2-1:2007		2024-08-13
		3	Dry heat	Environmental testing - Part 2: Test methods - Tests B: Dry heat GB/T 2423.2-2008		2024-08-13
		4	Dry heat	Environmental testing - Part 2-2: Tests - Test B: Dry heat IEC 60068-2-2:2007		2024-08-13
		5	Damp heat Steady state	Environmental testing - Part 2: Testing method - Test Cab: Damp heat, steady state GB/T 2423.3-2016	Only for - 70~150℃ , 10-95%RH.	2024-08-13
		6	Damp heat, cyclic	Environmental testing for electric and electronic products - Part	Only for -	2024-08-13

No. CNAS L0128

The scope of the accreditation in Chinese remains the definitive version.

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
				2: Test method - Test Db: Damp heat, cyclic (12h+12h cycle) GB/T 2423.4-2008	70~150℃ , 10-95%RH.	
		7	Impact	Environmental testing-Part2:Test methods-Test Ea and guidance:Shock GB/T 2423.5-2019	Only measured:half sine wave, pulse duration:11 ms, peak acceleration n≤50g, load ≤500kg	2024-08-13
		8	Impact	Environmental testing –Part 2-27: Tests – Test Ea and guidance: Shock IEC 60068-2-27:2008	Only measured:half sine wave, pulse duration:11 ms, peak acceleration n≤50g, load ≤500kg	2024-08-13
		9	Vibration	Environmental testing—Part2:Test methods—Test Fc:Vibration(sinusoidal) GB/T 2423.10-2019	Only measured: frequency range: (5~2000) Hz, maximum thrust ≤20kN,	2024-08-13

No. CNAS L0128

The scope of the accreditation in Chinese remains the definitive version.

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
					load ≤500kg, maximum acceleration:≤588m/s ² ; maximum displacement:≤100mm (p-p)	
		10	Vibration	Environmental testing –Part 2-6: Tests – Test Fc: Vibration (sinusoidal) IEC 60068-2-6:2007	Only measured: frequency range: (5~2000) Hz, maximum thrust ≤20kN, load ≤500kg, maximum acceleration:≤588m/s ² ; maximum displacement:≤100mm (p-p)	2024-08-13
		11	Salt mist	Environmental testing—Part 2: Test methods—Test Ka: Salt mist GB/T 2423.17-2024		2025-05-28
		12	Salt mist, cyclic	Environmental testing - Part 2: Tests method - Test Kb: Salt mist, cyclic (sodium chloride solution) GB/T 2423.18-2021	Except for test method	2024-08-13

No. CNAS L0128

The scope of the accreditation in Chinese remains the definitive version.

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
					8.	
		13	Salt mist, cyclic	Environmental testing - Part 2-52: Tests - Test Kb: Salt mist, cyclic (sodium chloride solution) IEC 60068-2-52: 2017	Except for test method 8.	2024-08-13
		14	Low air pressure tests	Environmental testing for electric and electronic products - Part 2: Test methods - Test M: Low air pressure GB/T 2423.21-2008		2024-08-13
		15	Change of temperature	Environmental testing—Part 2:Test methods—Test N:Change of temperature GB/T 2423.22-2012		2024-08-13
		16	Solar radiation	Environmental testing-Part 2:Test methods-Test S:Simulated solar radiation at ground level and guidance for solar radiation testing and weathering GB/T 2423.24-2022	Only measured:T est method Sa: thermal effect test	2024-08-13
		17	Solar radiation	Environmental testing - Part 2-5: Tests - Test S: Simulated solar radiation at ground level and guidance for solar radiation testing and weathering IEC 60068-2-5: 2018	Only measured:T est method Sa: thermal effect test	2024-08-13
		18	Glow-wire	Fire Hazard testing - Part 2-10: Glowing/hot-wire based test methods - Glow-wire apparatus and common test procedure IEC 60695-2-10:2013		2024-08-13
		19	Needle test	Fire hazard testing for electric and electronic products - Part 5: Test flames - Needle test method - Apparatus, confirmatory arrangement and guidance GB/T 5169.5-2020		2024-08-13
		20	Needle test	Fire hazard testing for electric and electronic products - Part 11-5: Test flames - Needle test method - Apparatus, confirmatory arrangement and guidance IEC 60695-11-5:2004		2024-08-13
		21	Horizontal and vertical flame	Fire hazard testing for electric and electronic products - Part 16: Test flames - 50W horizontal and vertical flame test methods		2024-08-13

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
				GB/T 5169.16-2017		
		22	Horizontal and vertical flame	Fire hazard testing for electric and electronic products - Part 11-10: Test flames - 50W horizontal and vertical flame test methods IEC 60695-11-10:2013		2024-08-13
		23	Proof and the comparative tracking indices of solid insulating materials	Method for the determination of the proof and the comparative tracking indices of solid insulating materials GB 4207-2022		2024-08-13
		24	Proof and the comparative tracking indices of solid insulating materials	Method for the determination of the proof and the comparative tracking indices of solid insulating materials IEC 60112: 2020		2024-08-13
		25	Touch current and protective conductor current	Methods of measurement of touch current and protective conductor current IEC 60990:2016		2024-08-13
2	Electrical equipment	1	IP tests	Degrees of protection provided by enclosure (IP code) GB/T 4208-2017		2024-08-13
		2	IP tests	Degrees of protection provided by enclosure (IP code) IEC 60529:1989+A1:1999+A2:2013		2024-08-13
		3	IK tests	Degrees of protection provided by enclosures for electrical equipment against external mechanical impacts (IK code) GB/T 20138-2023		2024-08-13
		4	IK tests	Degrees of protection provided by enclosures for electrical equipment against external mechanical impacts (IK code) IEC 62262:2002+A1:2021		2024-08-13
3	Luminaires	1	IK tests	Luminaires-Application of the IK code GB/Z 30418-2013		2024-08-13

No. CNAS L0128

	atmospheres- Equipment dust ignition protection by enclosure "t"	1	Impact test for supplementary enclosures	Explosive atmospheres –Part 31: Equipment dust ignition protection by enclosure "t" IEC 60079-31:2022 6.1.1.2		2024-08-13
		2	Pressure test	Explosive atmospheres –Part 31: Equipment dust ignition protection by enclosure "t" IEC 60079-31:2022 6.1.1.3		2024-08-13
		3	IP test	Explosive atmospheres –Part 31: Equipment dust ignition protection by enclosure "t" IEC 60079-31:2022 6.1.1.4		2024-08-13
		4	Thermal tests	Explosive atmospheres –Part 31: Equipment dust ignition protection by enclosure "t" IEC 60079-31:2022 6.1.3		2024-08-13
		5	Structural inspection and marking	Explosive atmospheres –Part 31: Equipment dust ignition protection by enclosure "t" IEC 60079-31:2022 5~7		2024-08-13
37	Equipment for explosive atmospheres- Equipment assemblies		All Items	Explosive atmospheres-Part 34:Equipment assemblies GB/T 3836.34-2021	Inspection & testing (tests of ability of the enclosure to withstand pressure, test for non- transmissio n of an internal ignition) site at No 3, Lane 21, Nanda Road,	2025-01-09

No. CNAS L0128

第 517 页 共 519 页

The scope of the accreditation in Chinese remains the definitive version.

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
					Shanghai.	
		1	Inspection & testing	Explosive atmospheres-Part 34:Equipment assemblies GB/T 3836.34-2021 6.6		2025-01-09
		2	Determining temperature class or maximum surface temperature marking	Explosive atmospheres-Part 34:Equipment assemblies GB/T 3836.34-2021 8.3		2025-01-09
38	Equipment for explosive atmospheres- Equipment assemblies		All Items	Explosive atmospheres-Part 46:Equipment assemblies IEC TS 60079-46:2017	Inspection & testing (tests of ability of the enclosure to withstand pressure, test for non-transmission of an internal ignition) site at No 3, Lane 21, Nanda Road, Shanghai.	2025-01-09
		1	Inspection & testing	Explosive atmospheres-Part 46:Equipment assemblies IEC TS 60079-46:2017 6.6		2025-01-09
