Name: Shanghai Institute of Quality Inspection and Technical Research

Address: No.900, Jiangyue Road, Minhang District, Shanghai, China (Electronics and Electrical Appliances)

Registration No. CNAS L0128

Accreditation Criteria: ISO/IEC 17025:2017 and relevant requirements of CNAS

Effective Date: 2024-09-20 Expiry Date: 2030-10-11

CHINA NATIONAL ACCREDITATION SERVICE FOR CONFORMITY ASSESSMENT
SCHEDULE OF ACCREDITATION CERTIFICATE

SCHEDULE 3 ACCREDITED TESTING SCOPE

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
I、Materials and electrical products environmental test						
1	Railway applications-Electronic equipments	1	Vibration test	Railway applications - Rolling stock equipment - Shock and vibration tests GB/T 21563-2018 8,9		2024-08-13
		2	Impact test	Railway applications - Rolling stock equipment - Shock and vibration tests GB/T 21563-2018 10		2024-08-13
		3	Vibration test	Railway applications - Rolling stock equipment - Shock and vibration tests IEC 1373：2010 8,9		2024-08-13
		4	Impact test	Railway applications - Rolling stock equipment - Shock and vibration tests IEC 1373：2010 10		2024-08-13
2	Electric and electronic products	1	Vibration test	The Chinese seismic intensity scale GB/T 17742-2020 4.3	Only measure I~X level	2024-08-13
3	medical electrical equipment	1	Transport test	Environmental requirement and test methods for medical electrical equipment GB/T 14710-2009 4		2024-08-13
		2	Rated working low temperature test	Environmental requirement and test methods for medical electrical equipment GB/T 14710-2009 11.1		2024-08-13

The scope of the accreditation in Chinese remains the definitive version.

№	Test Object	Item/Parameter		Standard or Method	Note	Effective Date
		№	Item/ Parameter			
					tested at 381, Cangwu Road	
153	Electric vehicle conductive charging system- off-board electric vehicle supply equipment		All Parameters	Electric vehicle conductive charging system—Part 2: EMC requirements for off-board electric vehicle supply equipment GB/T 18487.2-2017		2024-08-13
		1	Immunity test	Electric vehicle conductive charging system—Part 2: EMC requirements for off-board electric vehicle supply equipment GB/T 18487.2-2017 7.2		2024-08-13
		2	Launch test	Electric vehicle conductive charging system—Part 2: EMC requirements for off-board electric vehicle supply equipment GB/T 18487.2-2017 8		2024-08-13
154	PV Inverter		All parameters	Packaging -Basic test for transport packages- Part 10: Sinusoidal vibration test method using at variable vibration frequency GB/T 4857.10-2005 GB/T 4857.10-2005		2024-08-13
		1	Sinusoidal vibration test for transport packages	Packaging -Basic test for transport packages- Part 10: Sinusoidal vibration test method using at variable vibration frequency GB/T 4857.10-2005 GB/T 4857.10-2005		2024-08-13
155	PV Inverter		All parameters	Packaging -Basic test for transport packages- Part 10: Sinusoidal vibration test method using at variable vibration frequency ISO 8318-2000 ISO 8318-2000		2024-08-13
		1	Sinusoidal vibration test for transport packages	Packaging -Basic test for transport packages- Part 10: Sinusoidal vibration test method using at variable vibration frequency ISO 8318-2000 ISO 8318-2000		2024-08-13
156	Electric vehicle conductive charging system		Partial parameters	Electric vehicle conductive charging system - Part 1: General requirements GB/T 18487.1-2023	except for charging device specified in GB/T	2024-08-13
